Objective

IT student and aspiring developer seeking opportunities to apply and improve my skills in web development, tech support, and basic system administration. Interested in learning from real projects and contributing to simple, user-friendly solutions.

Education

Bachelor of Science in Information Technology

Universidad de Dagupan

2022 – 2026 (*Expected*)

Skills

- **Web & Development Basics**

- Basic understanding of web technologies and creating simple, user-friendly interfaces.

- **IT & Technical Skills**

Familiar with basic troubleshooting, system maintenance, and helping others with technical issues.

- **Learning & Teamwork**

Willing to learn new tools and technologies, can work in a group and follow instructions.

Projects

- **UDD Eventure – Event Management Platform**

Helped in building a platform for organizing and managing university events, focusing on a simple and clear user experience.

- **Personal Portfolio Website**

Created a personal portfolio site to showcase my background, skills, and projects.

Additional Information

- Open to internships, OJT, and entry-level opportunities in IT.
- Interested in improving both frontend and backend development skills.

If you tell me your exact GitHub username, I can rewrite the header with the correct link.
